

Capsule Polishing Machine ACP-100

After filling and sealing, capsules often carry residual dust or static. That's where the ACP-100 comes in. This automatic capsule polishing machine is designed to gently and effectively remove any fine powder and static electricity from the surface of your capsules. It's more than just cleaning; it's about elevating your product's presentation, preventing cross-contamination in downstream processes, and ensuring full compliance with stringent GMP standards. The ACP-100 provides a quiet, efficient, and reliable way to deliver perfectly clean, ready-to-package capsules, batch after batch.

Features

- ✓ **Versatile Application:** It's incredibly versatile, working perfectly for a wide range of pills and tablets.
- ✓ **Efficient Performance:** You'll get smooth operation, high output, and capsules that are exceptionally clean and polished.
- ✓ **Simple Maintenance:** Maintenance is a breeze. It's made from stainless steel, and parts connect with simple compression fittings, making assembly, disassembly, and thorough cleaning really easy.
- ✓ **Powerful Motor Control:** Under the hood, an inverter-controlled motor gives it the muscle for reliable, strong starts and consistent performance.
- ✓ **Easy Mobility:** Need to move it? No problem. Its flexible rollers make repositioning a cinch.
- ✓ **User-Friendly Design:** Its lightweight, smart design not only looks good but makes it genuinely easy to operate.

Technical Parameters

Model	ACP-100
Capacity	10,000 pcs/min
Capsule Sizes	00#, 0#, 1#, 2#, 3#, 4#
Power Supply	220V 50Hz / 110V 60Hz
Power	0.18 kW
Overall Dimensions	Length 1,025mm Width: 550mm Height: 900mm Weight: 40kg
