

Automatic Bottle Unscrambler CBL-Z

The CBL-Z automatic plastic bottle unscrambler is made to sort plastic containers. It efficiently processes plastic bottles of various shapes and sizes. The CBL-Z is known for its smooth operation and reliability. This unscrambler prevents scratches and damage to the bottle surfaces, so the product stays in good condition. This is an ideal and reliable choice for businesses looking to increase the speed and efficiency of plastic bottle packaging.

Features

✓ **Wide Use:** Works for many industries (pharma, cosmetic, food, beverage). Handles different bottle materials (glass, plastic) and shapes (round, square).

✓ **Good Speed:** Can sort 30 to 45

bottles per minute, making your line much faster.

✓ **Safe & Easy to Use:** All electrical parts are grounded for safety. The machine is designed for simple, user-friendly operation.

✓ **Simple to Maintain:** Easy to clean daily (wipe, don't spray). Check worn parts monthly for long-term use.
