

# Semi-Automatic Flat Surface Labeling Machine MT-60M

Tired of the tedious task of hand-labeling flat containers? The MT-60M makes the job faster and cleaner. This semi automatic labeler machine is built to apply self-adhesive labels to flat surfaces. It features a high-precision electric eye for accurate label sensing, a foot-pedal trigger for operator control, and an integrated hot stamp code printer for date and batch printing.

It's worth mentioning that you can adjust the MT-60M's label applicator head

vertically to suit products of different heights. Plus, this model is built with a width-adjustable positioning jig that holds the product to be labeled and guides it in place for labeling. Its tabletop design and versatile adjustments make it a smart choice for pharmaceuticals, cosmetics, supplements, and food products.

## Features

- ✓ **Flat Surface Labeling:** Designed for labeling cartons, boxes, or square bottles.
- ✓ **Vacuum Suction:** Uses vacuum to pick up sticker labels for wrinkle-free application.
- ✓ **Built-in Ribbon Coding Printer:** Prints product info on the label in real time.
- ✓ **Adjustable Framing:** Label applicator head and positioning jig can be adjusted for different product sizes.
- ✓ **Foot Pedal Trigger:** Simple foot switch allows hands-free operation.
- ✓ **Clear Label Path:** Open-frame design makes threading straightforward.
- ✓ **Compact Footprint:** Space-saving design fits easily on a workbench.

## Technical Parameters

Model	MT-60M
Labeling Speed	25-50 times/minute
Label Size	Length: 30 mm – 100 mm Width: 30 mm – 60 mm
Label Roll Diameter	Inner: ≥75 mm Inner: ≤Φ260 mm
Product Height	5 mm – 80 mm
Accuracy	±0.5mm
Voltage	220V 50Hz / 110V 60Hz
Dimensions	620 x 600 x 310 mm
Weight	35 kg
