

Transparent Film Overwrapping Machine

BT-2000B

This model is designed to wrap rigid boxes and cartons using BOPP or OPP film for a clear, tight finish. It's perfect for packaging items like medicine, health supplements, cosmetics, tea, and DVDs. In addition to shelf appeal, this overwrapping machine protects your product from dust and moisture. It also works well on tear tape packaging, making opening easy for consumers.

The BT-2000B combines optical, pneumatic, and control systems to deliver quiet, efficient, and user-friendly operation. This carton overwrapping machine checks all the boxes for brands needing stylish wrapping with added value.

Features

- ✓ **Precise Control:** All key parameters are clearly displayed and easy to set up.
- ✓ **Easy Film Length Adjustment:** Cutting length is quick to set to meet various overwrapping needs.
- ✓ **Static Eliminator Equipped:** Helps prevent film jams and ensures smooth film feeding.
- ✓ **Flexible Integration:** Front-end conveyor can easily connect to upstream production lines.
- ✓ **Overload Protection:** Built-in safety mechanism protects the system from overload damage.
- ✓ **Dust Removal Ready:** Allows quick daily cleaning using compressed air for cleaner operation.
- ✓ **Mobile Base with Locking Casters:** Fitted with wheels for easy relocation and secure positioning.
- ✓ **Conforms to Standards:** Built to meet ISO 9001:2000 and CE certification standards.

Technical Parameters

Model	BT-2000B
Production Capacity:	40-60 packs/min
Package Size	(L)40-160mm × (W)20-100mm × (H)10-50mm
Power Supply	220V 50-60Hz 0.75kW
Electric Heating	3.7kW
Dimension	2,400 mm × 800 mm × 1,560 mm
Weight	880kg
